

The background of the entire image is a close-up, black and white photograph of numerous wooden puzzle pieces scattered across a wooden surface. The pieces are in various orientations, some showing their interlocking shapes. A large, solid blue rectangle is centered in the upper half of the image, containing white text.

ICEG

REVIEW COMITE

3/09/2026

Host: Online

Welcome & agenda of the meeting

AGENDA

Topic	Speaker	Notes
Standardisation exercises	Valy Van den Broeck Alexander Potloot Eveline Vlassenroot	• ICEG Person: update • Extension ICEG Hydrants: update • Assessment BEST: update • Exercise translation of OSLO standards: update and feedback requested
Agenda ICEG Interoperability Day	Review Comite	Proposal for ICEG Interoperability Day on 18/11/2026 in Herman Teirlinck (Brussels)
ICEG Collaboration Agreement (financials)	Eveline Vlassenroot	Discussion on the proposed invoicing approach for the 2026 partner contributions. Proposal to invoice all partners for Q1 and Q2 based on the agreed contribution key. Confirmation of the approach and identification of the relevant invoicing contacts within each organisation.

Update standardisation exercises

ICEG Person

Valy Van den Broeck

ICEG Person

- **Kick-off 11/05/2026:** trajectory restarted with all federal & regional partners; governance and working structure discussed.
- **Core-team meeting 21/05/2026:** scope thematic workshop and charter confirmed. →
- **Business Workshop 24/06/2026:** 8 presentations of use cases from (BCSS, National Register, Fidus, BCED, Digitaal Vlaanderen, BOSA, CBE, Smals) **Use cases:** consultation & notification, social benefits, population selection, worker identification, Once-Only exchange, eIDAS, representation, smart services, Bis-numbers.
- **Key takeaways BW:** SSIN carrying personal data, nationality fields, different "(sub)registers", need for history, etc. → [presentations](#)
- **Scope:** an ICEG Person model as national reference for all government levels, taking the National Register information types (IT) as starting point.
- **4 themes defined** → 4 thematic workshops planned, invitations published.
- Minutes/Charter/Scope → [Github](#)

ICEG Person

Next steps:

Thematic workshops (10:00-12:30)

- **WS1 Core Identification** - 21/09/2026
- **WS2 Address & Residence** - 19/10/2026 (**moved from 22/10**)
- **WS3 Family & Civil Status** - 19/11/2026
- **WS4 Status, Documents & Special Cases** - 10/12/2026

Per workshop: concepts, attributes, cardinality, data types, relations

Deliverables: OpenAPI 3.0 - published on belgif.be.

Timeline: v1 to be consolidated after WS4 → **End of December 2026 or Q1 2027**.

ICEG Hydrants

Alexander Potlout

ICEG Hydrants

Update 2026

- 43 change requests have been tackled based on feedback from Working Group on 28/03/2024. Full list of change requests and outcomes can be found [here](#).
- [Draft publication on BELGIF](#)

To Do

- Organise workshop in October and closing webinar in November

ICEG BeStAdd

Alexander Potlout

ICEG BeStAdd

Update 2026

- The BeSt Add model was updated to enable successful processing via OSLO Toolchain 4.
- Technical adjustments included:
 - Model naming
 - Codelist modelling (class with attributes changed to enumeration)
 - Missing URIs for relations (placeholders added)
 - URI notation corrections (HTML entities were deleted, such as '<' and '>')
- No changes were made to the semantic content of the model (definitions, cardinalities, usage notes, relations, etc. were not changed).
- Workshop session was held with BOSA to support the split between application profile and implementation model

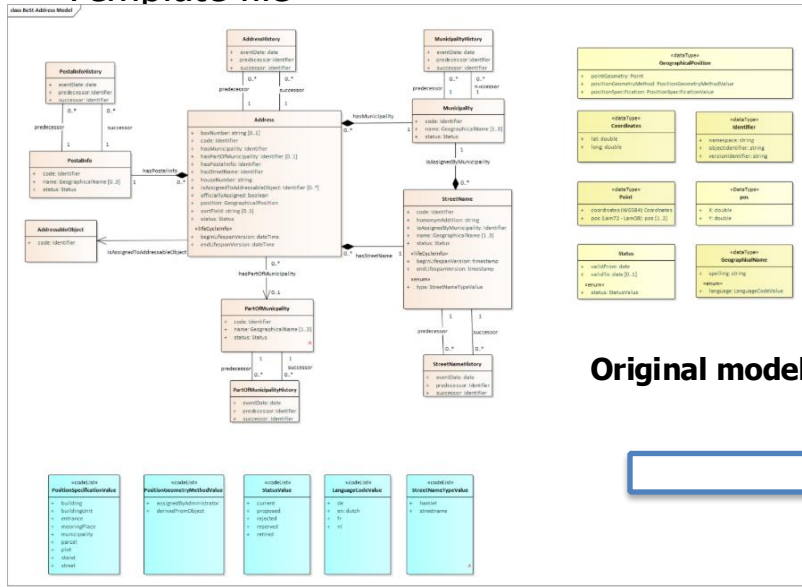

Ongoing

- Provide a list of elements with missing URIs for further completion
- Final details for [test publication on data.standaarden.be](https://data.standaarden.be)

Original model

Updated model

Update exercise translation data standards

Eveline Vlassenroot

Objective & approach

- Objective: translate 135 recognized standards and 35 candidate standards into English, French and German
- Publication: ICEG Github and Belgif website
- Budget: 50% of total ICEG allocation

Automatic translations: first examples online

The examples allow the Review Committee to assess the approach in practice

What is available

- Two translated OSLO examples are available online (ENG – NL)
- The pages include a language switcher
- A banner identifies the automatically translated version

Current scope

- The examples demonstrate the user experience
- OpenAPI configuration remains in Dutch for now
- Automatically generated technical translations are not published when quality is uncertain

Feedback requested

- Is the status of the translation sufficiently clear?
- Is the language switcher easy to find and use?
- Are there points to improve before wider publication?

[VIEW ONLINE EXAMPLE 1](#)
[VIEW ONLINE EXAMPLE 2](#)

Review Committee members are invited to test the example and share feedback.

Next step: multilingual standards register example

A second example will show how multilingual standards can be presented in the ICEG overview

Purpose

Make it immediately visible which standards and language versions are available in the register.

1

Overview

Show multilingual standards together on one register page.

2

Languages

Display the available language versions per standard.

3

Status

Distinguish official versions from automatically translated inspiration versions.

4

Feedback

Use the example to collect input before further rollout.

The register-page example will be shared with the next ICEG Review Committee for feedback.

Agenda ICEG Interoperability Day

ICEG Interoperability Day

Proposal for discussion in the ICEG Review Committee

Objective

- Make interoperability tangible through concrete implementation cases
- Exchange experience on standards, APIs, data models and data spaces
- Connect technical, project and policy perspectives
- Strengthen ICEG as an interfederal community of practice

Date & location

- 18 November 2026
- Herman Teirlinck building

Set-up

- Maximum 100 participants
- Plenary auditorium: 100
- Break-outs: 4 groups of max. 25
- Working language: English

For validation: objective, date, target audience and maximum capacity

Draft programme and break-outs

Working proposal to be completed together

09:00	Welcome coffee
09:30	Plenary opening and context
10:30	Coffee break
11:00	Four parallel break-outs
12:30	Lunch
14:00	End

Break-out 1

- REST Style Guides & API Interoperability

Break-out 2

- Identifiers & Semantic Interoperability

Break-out 3

- Data spaces & Emerging Ecosystems

Break-out 4

- Interoperability Governance

Room set-up

- Four rooms of 25 participants; two additional rooms remain available

To complete together: session topics, cases, speakers, facilitators and room allocation

ICEG Collaboration Agreement (financials)

ICEG 2026 partner contributions: proposed invoicing approach

Proposal for discussion and agreement in the ICEG Review Committee

Proposal for Q1–Q2

- Invoice €14,098.87 in costs for Q1 and Q2
- Allocate the amount using the contribution key agreed in the SWO
- Communicate each partner's specific amount so an IO/PO can be prepared

Approach for Q3–Q4

- Option 1: invoice each quarter separately
- Option 2: combine the final two quarters
- Communicate and invoice the remaining 2026 amount by the first week of December, before year-end closing

Information needed per partner

- Contact person or team for accounting and invoicing
- Required IO/PO number or invoice reference
- Any specific invoicing instructions or notes

DECISIONS REQUESTED

1

Proceed with Q1–Q2 invoicing now

2

Quarterly invoices or one combined Q3–Q4 invoice

3

Confirm partner-specific invoicing details

Partner contacts for invoicing

Please complete the financial contact and indicate any organisation-specific invoicing requirements.

Organisation	Business contact	Financial contact	PO/IO reference or special instructions
SPW	dominique.buffet@spw.wallonie.be	<i>To be completed</i>	<i>To be completed</i>
FOD BOSA	liesbeth.dhondt@bosa.fgov.be	<i>To be completed</i>	<i>To be completed</i>
Digitaal Vlaanderen	eveline.vlassenroot@vlaanderen.be	<i>To be completed</i>	<i>To be completed</i>
ETNIC	alexandre.delalieu@cfwb.be	<i>To be completed</i>	<i>To be completed</i>
Paradigm	eauquiere@paradigm.brussels	<i>To be completed</i>	<i>To be completed</i>
DUG	dominique.buecken@dgov.be	<i>To be completed</i>	<i>To be completed</i>

Action for each partner: share the financial contact details and any mandatory invoice wording or reference.
