eID schemes notified

Germany

National ID card

40.000.000 registered users

20.02.2017

- **On 23 August 2017, DE eID formally notified – Published to OJEU on 26.9.2017!**
- A milestone towards establishing eID and trust services in Europe achieved!

…. and **ITALY** pre-notified its private-sector led scheme SPID on **24.11.2017** !

Where does eIDAS have an impact?

UMM&DS
Uniform User Management and Digital Signatures

eHGI
eHealth Governance Initiative

ECI
European Citizens' Initiative

ESSN
European Social Security Number

SUP
Directive on single-member private limited liability companies

PSD2
Revised Directive on Payment Services

AML5
5th Anti-Money Laundering Directive

Tallinn Ministerial Declaration on eGovernment

European Commission

Tallinn Digital Summit 29/09/2017

Need for a stronger and more coherent Digital Europe

- **Bring government and the public sector into the digital age**
- Make it **possible to digitally conduct all government proceedings**
- **Transform our institutions** to meet the challenges of the digital age
- Introduce principles such as **once-only or one-stop** government
- Make **secure and trusted digital identity** accessible to every EU citizen
- Facilitate the use of **electronic and innovative procurement**
- **Public administrations should lead the way**

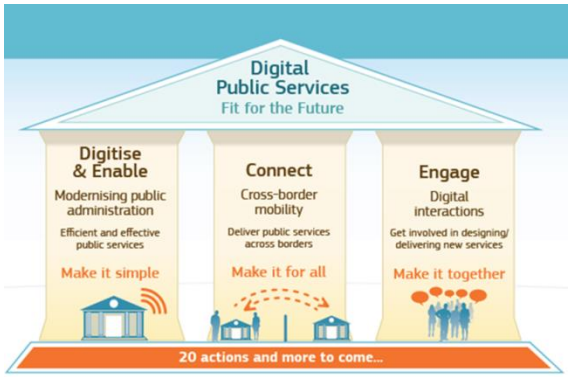

'We owe it to our citizens, to our industries and businesses not to miss this opportunity of making Europe a truly digital continent by 2025…' ***(EE Prime Minister)***

☑

☑

'However, more needs to be done and … to spread digitisation across all policy areas and … to put the end-users truly at the centre of services…'

Tallinn Ministerial Declaration on eGovernment

European Commission

EU2017.EE

- Speeding up the implementation of the **eIDAS regulation**, including the notification of electronic identity schemes
- Making digital public services secure and identifiable by using the **eIDAS** framework for qualified electronic trust services
- Introducing **once-only options** in digital public services by collaboration and data exchange, including with other countries
- **Re-use of the Digital Service Infrastructures** developed under the Connecting Europe Facility

Digital by default

Once-only principle

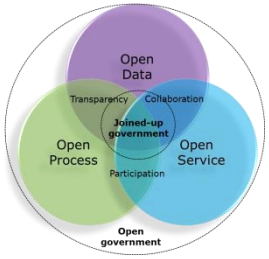

Cross-border by default

Tallinn Ministerial Declaration on eGovernment

EU2017.EE

Openness & transparency

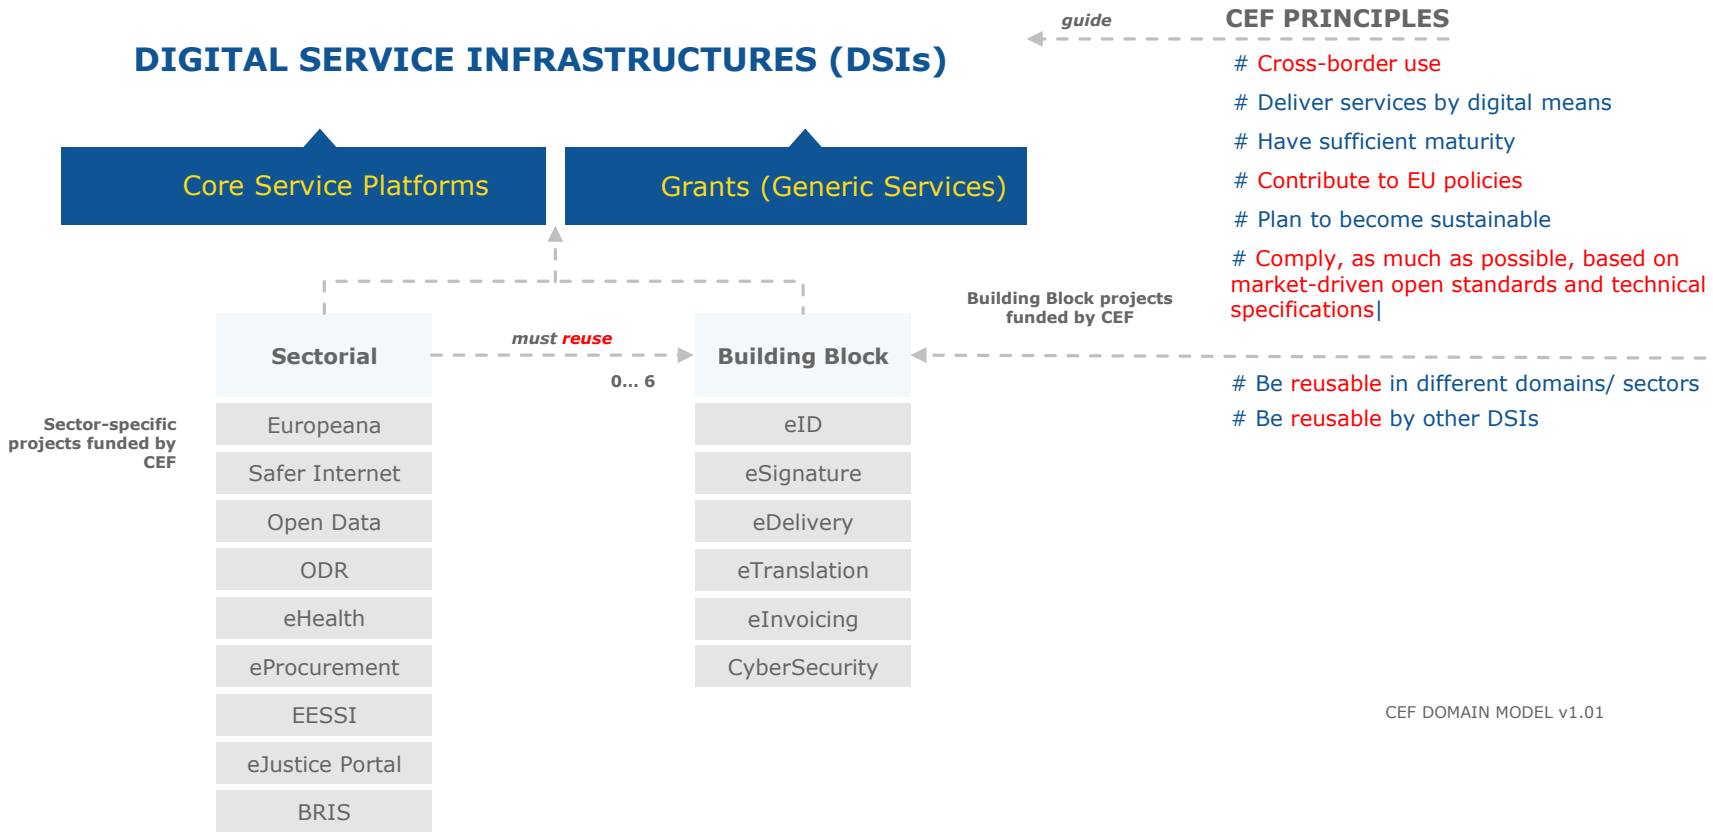

- increase the availability and quality of **open government data** and enabling more the automatic access to databases (by APIs)
- make more use of **open source solutions** and **open standards** when (re)building ICT systems and solutions
- devote resources for more and faster **experimentation with emerging ICT** within the public administration
- work to **modernise the design of public services, procurement and contracting arrangements**, to make them compatible with modern and agile ways of developing and deploying digital technology
- prepare and implement initiatives to widen and deepen the use of **data and analytics**

Linking CEF to the #DigitalSingleMarket

All Policy Domains have similar cross-border needs

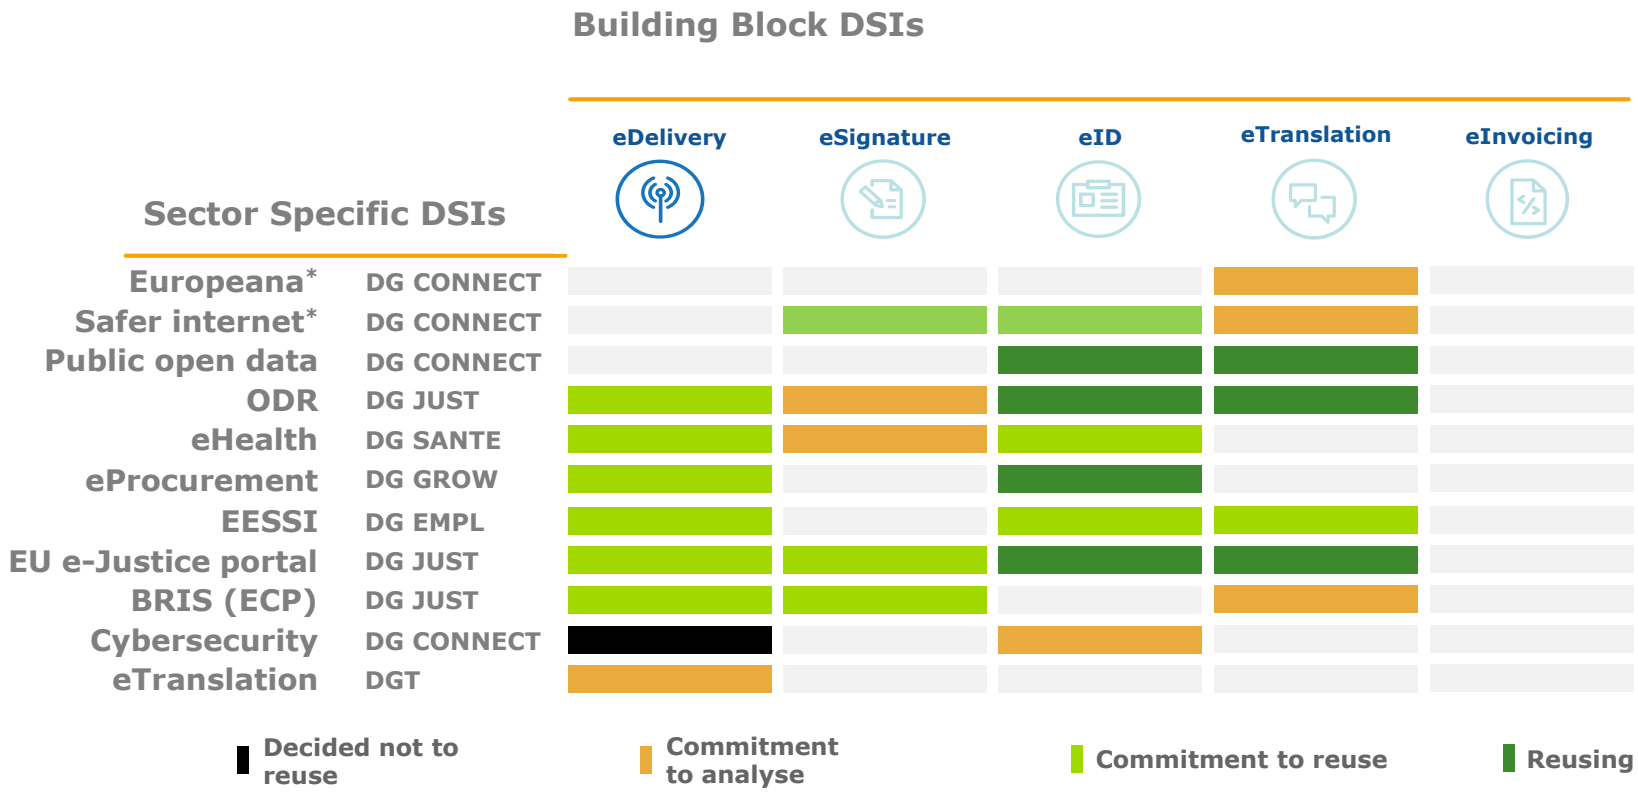

SECTORS	BUILDING BLOCKS	NEEDS
 eJustice	IDENTIFY *with* **eID**	**Authentication** based on eID systems in the Member States
 ODR	TRANSLATE *with* **eTranslation**	**Automated translation** of data and documents
 eHealth	INVOICE *with* **eInvoicing**	Electronic **invoicing** respecting the **European Standards**
 EESSI	SIGN *with* **eSignature**	**Recognition of eSignatures**
	EXCHANGE *with* **eDelivery**	**Securely exchange** electronic **data** and **documents**

What are Digital Service Infrastructures?

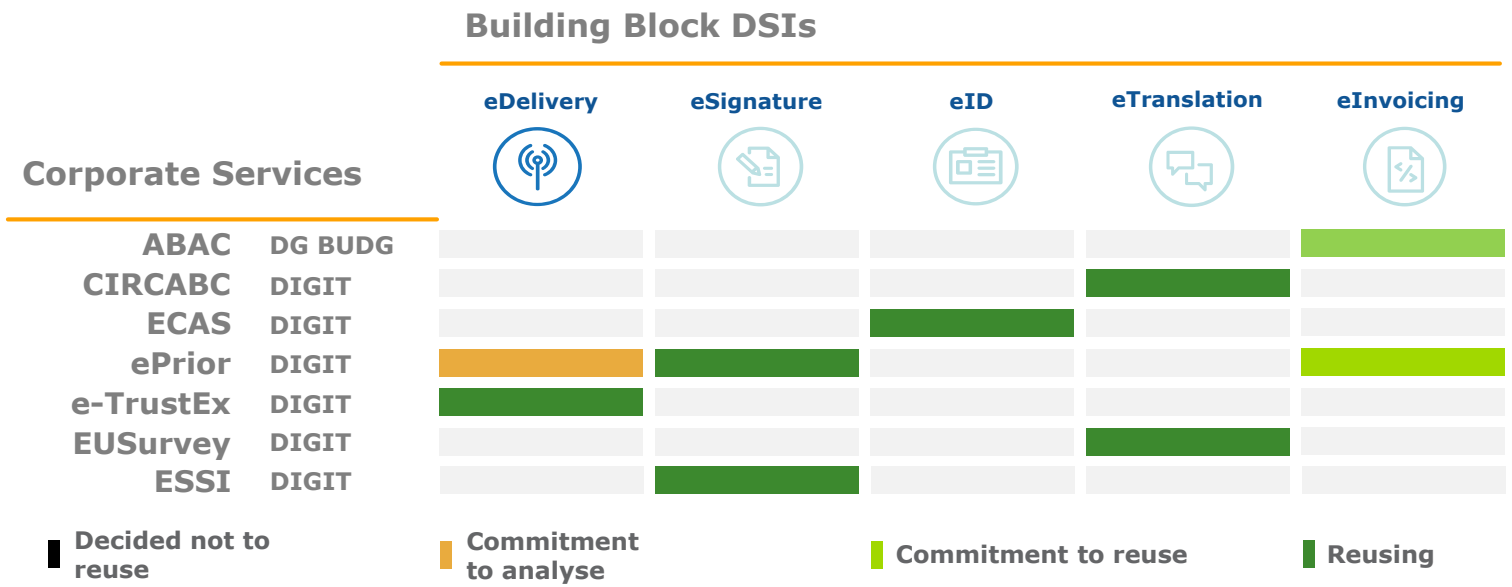

(*) A Building Block is a package of technical specifications, services and sample software that can be reused in different policy domains:

Reuse of building blocks by CEF's sectorial projects

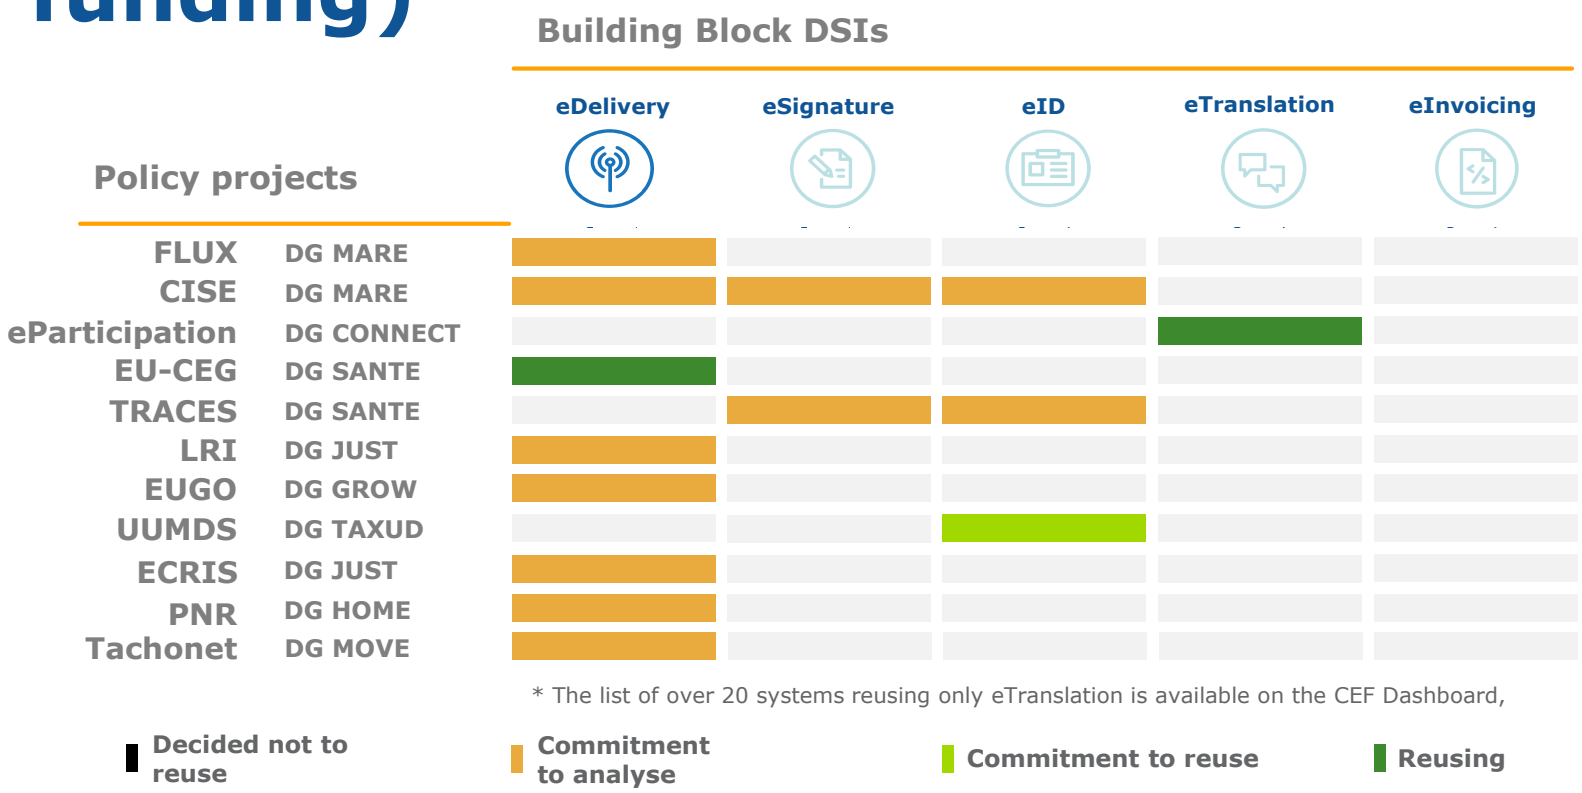

* Projects run together with Member States through grants provided by CEF.

Reuse by Corporate Managed Services

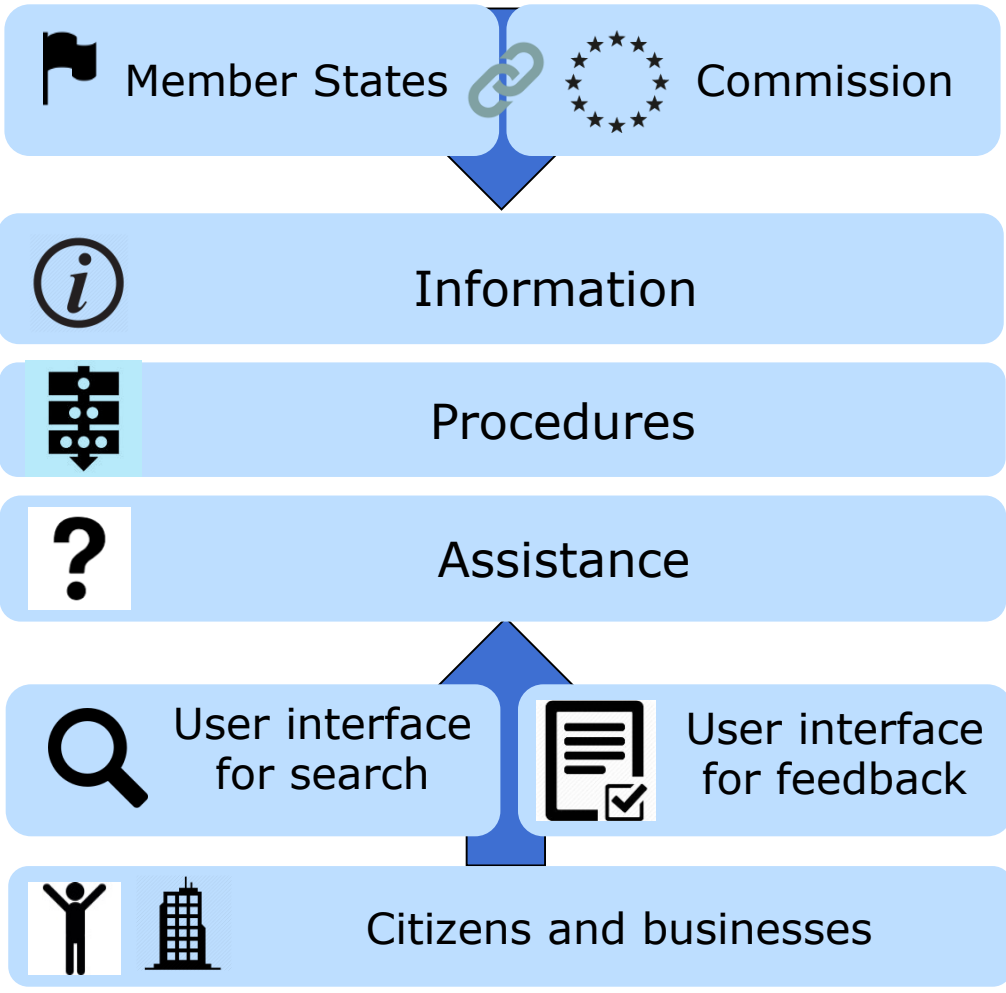

Reuse by Policy DGs (without CEF funding)

* The list of over 20 systems reusing only eTranslation is available on the CEF Dashboard,

Digital Single Gateway Once Only Principle (Art 12)

Single digital gateway - structure and added value

What is the added value?

- ☑ Cross-silo approach
- ☑ Fully user-centric
- ☑ Non-duplication
- ☑ Fill online information gaps
- ☑ Fill quality gaps
- ☑ Improve findability
- ☑ Most used procedures online
- ☑ Full cross-border accessibility
- ☑
- ☑

Main requirements of the SDG

Member States

- Offer information on national rules online and in at least another language than the national one
- Ensure compliance with quality criteria
- Offer 13 key procedures online and accessible for EU cross-border users
- Ensure that national online procedures can be completed by EU cross-border users
- **Cross-border once-only for selected procedures**
- Link to the single digital gateway

Commission

- Offer EU level information online
- Coordinate the networks of EU assistance services
- Ensure compliance with quality criteria
- Develop and manage common IT tools
- Ensure governance
- Monitor and report

Art 12

1. For the purpose of the exchange of evidence for online procedures listed in Annex II and procedures provided for in Directives 2005/36/EC, 2006/123/EC, 2014/24/EU and 2014/25/EU, a technical system for the electronic exchange of evidence between competent authorities in different Member States ("the technical system") shall be established by the Commission in cooperation with the Member States.

2. The technical system shall fulfil the following requirements:

(a) it shall enable the processing of requests for evidence to be exchanged;
(b) it shall allow the transmission of evidence between competent authorities;
(c) it shall allow the processing of the evidence by the receiving competent authority;
(d) it shall ensure the confidentiality and integrity of the evidence;
(e) it shall ensure that the user has the possibility to preview the evidence to be exchanged.

3. Member States shall integrate the technical system as part of the procedures referred to in paragraph 1.

4. The competent authorities responsible for online procedures referred to in paragraph 1 shall, upon an explicit request of the user, request evidence directly from competent authorities issuing evidence in other Member States through the technical system. The issuing authorities shall, subject to paragraph 2(d), make such evidence available through the same system.

5. Where competent authorities issue evidence in electronic format for the purpose of procedures referred to in paragraph 1 within their own Member State, they shall also make such evidence available to the requesting competent authorities from other Member States, through the technical system.

Art 12

6. The evidence made available by a competent authority shall be strictly limited to what has been requested and shall only be used by the receiving authority for the purpose of the procedure for which the evidence was exchanged.

7. The Commission shall adopt implementing acts to set out the specifications of the technical system necessary for the implementation of this Article. Those implementing acts shall be adopted in accordance with the procedure referred to in Article 34(2).

8. Paragraphs 3 to 6 shall not apply to procedures established at Union level which provide for different mechanisms for the exchange of evidence, unless the technical system referred to in paragraph 1 is integrated into those procedures in accordance with the rules of the Union acts that establish them.

European Commission

Preparatory work

- TOOP ("The Once Only Pilot", www.toop.eu, H2020 – SC6)
  - 21 MS, over 50 organisations (Ministries, academic and industrial)
  - Focus on 3 business domain
    - Business mobility, including procurement
    - Company data (and link with BRIS regulation)
    - Maritime data (ship and crew certificates)
  - Started 1/1/2017
  - 1st pilot will be launched mid 2018

- SCOOP4C ("Stakeholder Community Once-Only Principle for Citizens", www.scoop4c.eu, H2020 – SC6 -)
  - Support action to assess the specific needs for citizens

- Study

  "EU-wide digital Once-Only Principle for citizens and businesses - Policy options and their impacts", SMART 2015/0062
